Raw Water flush	716005	716006	726005	726006

### Dimensions

## DOMETIC

Mobile living made easy.

Maximum comfort in the smallest space was the challenge faced by the designers of the Dometic Master-Flush® 7100 series.

The new macerator toilet gives boat owners homelike comfort and hygiene in the smallest room on board: a residential-size seat, a deeply sloped bowl, and an aesthetically appealing round front. All of this without requiring a premium price. The space-saving toilet is ideal for retrofitting – it fits the plumbing points of most commonly used boat toilets.

The 360° ORBIT installation feature means the base can be fixed to any angle to the bowl to avoid walls or adapt to diverse plumbing layouts. Another asset is the highly effective macerator system. Its 10-blade stainless steel cutting wheel pulverizes waste and pushes it to the holding tank. Maximum effluent flow minimises the chance of odour permeation, so boat owners and their guests can enjoy their cruise in complete comfort and convenience.

### Technical Specifications

<b>Voltage</b>	<b>12v</b>	<b>24v</b>
<b>Electric Consumption</b>	20 Amps	10 Amps
<b>Electric Circuit Breaker</b>	25 Amps	15 Amps
