

Water Pump & Accumulator Tank Kits

8 ltr compact accumulator tank Kit

2 ltr compact accumulator tank Kit

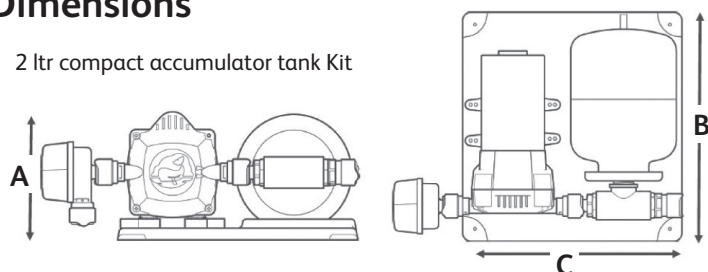

Whale electric galley pump range includes models with the very latest electronic technology. All pumps are manufactured from only highest quality inhouse moulded parts and robust motors. Smooth constant flow prevents water hammering and cycling. One piece kit includes pump and compact accumulator tank. This integrated kit is a drop into line pre assembled kit designed to provide a constant reliable flow of water on board.

Combined pump and accumulator tank ensures a smooth even flow of water to all outlets
 Compact design installs easily in convenient locations
 Reduced noise and vibration by preventing pump cycling
 Easily plumbed into standard 1/2" or 3/8" pipework
 Connects directly to Whale Quick connects 15 mm plumbing system
 Can be fitted to new or existing systems
 Straight forward one piece fit - moulded base allows the installer to drop in and plumbing
 Includes long life Whale pressure pump and accumulator tank - compact and effective in smoothing water flow
